

SPECIAL NOTE FROM:

Colorado Department of Public Health & Environment,
Water Quality Control Division:

There is an amendment to the Consumer Confidence Report regarding our system's potential sources of contamination. According to the Source Water Protection program, the potential sources for any contamination in our water system's area are as follows: EPA Areas of Concern, Aboveground, Underground and Leaking Storage Tank Sites, Existing / Abandoned Mine Sites, Concentrated Animal Feeding Operations, Other Facilities, Commercial / Industrial / Transportation, Residential, Urban Grasses, Agriculture, Septic Systems, Oil / Gas Wells and Road Miles.
