

# AGENDA

## TOWN OF HUDSON PLANNING COMMISSION WORKSHOP MEETING July 13, 2016 – 6:00 p.m.

There are no development cases for review by the Planning Commission this month. However, we need to catch up on a number of general planning related projects that staff has been working on and your help is needed to review and comment on the progress. The planning projects for discussion are:

A **Concept Plan** for the Town's former sewage lagoon at the intersection of State Highway 52 and the I-76 Frontage Road.

A **Sub-area Plan** for the I-76 Interchange area which includes the areas behind Love's Travel Stop and the area south of State Highway 52.

Comments you may have on the **Parks, Open Space and Trails Master Plan** prepared and distributed in April. You may recall our May Planning Commission meeting was extended by the discussion related to the East Ridge Drainage problem and we did not get an opportunity to review the document.

This is going to be an informal meeting with materials presented at the meeting and I hope that you all can attend.

Roy
