

WHEN IS A BUILDING PERMIT NEEDED?

From replacing a water heater to building a new home, the question is always, “Do I need a building permit?” Even small home improvement projects may require a building permit. Faulty installations can cause fires, flood damage and other hazards, and force you to make costly repairs when you sell your home. Permits, and the inspections that come with them, protect your family’s safety and the value of your property by ensuring the work meets adopted building codes.

Below is a list of projects that typically require a building permit. Beside each project in parentheses is the department(s) that will need review approval prior to a permit being issued. The Town currently enforces the **2018 edition of the International Building Codes**. Zoning Standards for residential properties can be found in Chapter 16 of the Town of Hudson Municipal Code, posted on the Town website under Government.

Note: The following table (*see Table 1 right*) is **not** intended to be a complete list, nor is it intended to cover all types of projects or conditions. Depending upon the scope of the project, a permit application can be submitted online via email to the addresses on the Town’s website.

Please call the Building Department (SAFEbuilt) if you don’t find your project listed. Contact information can be found on our website at

www.hudsoncolorado.org/166/Building-Inspection-Code-Enforcement.

TABLE 1. BUILDING PERMIT TYPE BY REVIEWER

<i>Project Type</i>	<i>Reviewer</i>
New buildings	Zoning Building
Storage sheds	Zoning Building
Decks	Zoning Building
Patio Covers & Carports	Zoning Building
Re-Roofing	Building
Fireplaces, gas log installations, replacements	Building

Change of use & occupancy	Zoning Building

EXEMPTIONS FOR BUILDING PERMITS

Exemptions from permit requirements of this code shall not be deemed to grant authority for any work to be done in any manner in violation of the provisions of this code or any other laws or ordinances of this jurisdiction. Permits shall not be required for the following:

1. One-story detached accessory structures used as tool and storage sheds, playhouses and similar uses, provided the floor area does not exceed 200 square feet (11.15 m²); and
 - a. The accessory building is subordinate to the principal building.
 - b. The accessory building is located on the same lot or parcel as the principal building.
2. Retaining walls which are not more than 4 feet (1,219 mm) in height measured from the bottom of the footing to the top of the wall, unless supporting a surcharge or impounding Class I, II or IIIA liquids.
3. Water tanks supported directly on grade if the capacity does not exceed 5,000 gallons (18,925 L) and the ratio of height to diameter or width does not exceed 2 to 1.
4. Sidewalks and driveways not more than 30 inches (762 mm) above adjacent grade and not over any basement or story below and which are not part of an accessible route completely on private property.
5. Painting, papering, tiling, carpeting, cabinets, counter tops and similar finish work.
6. Prefabricated swimming pools accessory to a Group R-3 occupancy, that are less than 24 inches (610 mm) deep, do not exceed 5,000 gallons (18,925 L) and are installed entirely above ground.
7. Swings and other playground equipment accessory to detached one- and two-family dwellings.
8. Window awnings supported by an exterior wall which do not project more than 54 inches (1,372 mm) from the exterior wall and do not require additional support.
9. Public utility towers and poles.
10. Platforms, walks and driveways not more than thirty (30) inches above grade and not over any basement or story below. This exemption does not apply to any platforms, decks or landings attached to or placed adjacent to any building or structure.
